

Exciting news on the reopening of Salford Post Office

Salford Community Association is delighted to announce that on 17 May 2018 it finally received approval from Post Office Ltd to reopen Salford Post Office in the current library building. This is wonderful news after months of discussion with them. Unfortunately it is still likely to take up to 3 months to work with the Post Office to implement all the required infrastructure, appoint the part time counter staff and carry out the necessary training, but the Post Office will now definitely reopen and individuals and businesses can now start to plan for its reopening. According to Post Office Ltd, a community Post Office combined with a community run library is unique in the South West!

The library will continue to open for its current hours until Salford Community Library Hub Ltd implements the transfer from B&NES Council, when it will change to being open Monday through to Saturday like the Post Office. Over the next 3 months Salford Community Library Hub Ltd looks forward to developing and growing a unique community owned and run operation, serving the needs of the local community and anyone passing through Salford. It will shortly be looking to appoint a Post Office Counter Clerk(s). A full job description is available via email from chair@salfordhall.co.uk.
