

21 November 2023

Dear Customer,

High Street and Mead Lane, Salford - Temporary Traffic Restriction Order

In line with the Temporary Traffic Restriction Order (TTRO) in place for High Street and Mead Lane in Salford, we are notifying you that parking restrictions will be in place for these roads on three consecutive days **Wednesday 29 November until Friday 1 December 2023 from 9am until 4pm each day.**

Why is the temporary traffic restriction order (TTRO) required?

The order is required to improve accessibility for vehicles travelling to Salford Water Recycling Centre to make deliveries for the construction work taking place.

This use of the order on this occasion is to allow the delivery, via articulated wagons, of around 12 welfare cabins for the wider work on the site. Due to their large width and length, and as such, the specialist supplier is only able to bring four per day. Traffic movement will be infrequent but spaced to avoid congestion along the High street.

The TTRO covers an 18-month period, but restrictions will **not** be in place for that amount of time. Instead, there will be a number of occasions during this period, such as this one, where restrictions are required. Restrictions will **not** be in place on weekends and bank holidays.

What does the order mean?

On this occasion, these restrictions will be in force during working hours (between 9am and 4pm) only. During these times you will be required to remove parked vehicles from these roads to allow the space for deliveries to the Salford Water Recycling Centre on Mead Lane. These latest restrictions will finish at the end of the working day.

How will this affect me?

A marshal will be on hand to assist with vehicle access and exit to and from the holding bay at Salford Court as necessary.

As agreed with Salford Parish Council and local B&NES members, Wessex Water will attempt to meet any special needs or concerns of any residents when the restrictions are in place.

Any known significant deliveries and building works that may affect vehicle movements while the restrictions are in place should also be reported to us.

These requests should be phoned through to the team on 07717 355917 prior to the start of these restrictions.

Anything else you need to know?

We remain committed to working with the local community to understand the potential issues and constraints in relation to the Temporary Traffic Restriction Order and our project team will continue to be available via the dedicated email address salford.access@wessexwater.co.uk.

There is also information about this scheme on our website, which can be found at www.wessexwater.co.uk/salfordaccess. We will update this page with any useful information in due course.

Yours faithfully

Kelvin Brick, Project Manager, Wessex Water
